 Subject: Indirect wetland impact memo for Tomorrows meeting on polymet (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

PolyMet has informed me that they have purchased options for 2,000 acres of credits in the St. Louis Wetland Mitigation Bank. After using credits for direct impacts that leaves about 1,000 acres of credits for indirect wetland impacts. The current options are valid for 7 years.

I'd like a discussion on how this affects:

the need for financial assurances for indirect wetland impacts, and

the minimum duration of monitoring, that is what do we do at the end of year 7.

Thanks,

Ralph
